

KNIGHT VISION PROGRAM OVERVIEW

Knight Vision

WHAT IS KNIGHT VISION?

Knight Vision is a campus-wide program that will transform the way UCF works through optimized processes and state-of-the-art technologies that provide a single source of truth to inform strategic decision-making in a rapidly changing world. Knight Vision will replace the current PeopleSoft system with the cloud-based Workday system to modernize and simplify UCF's transactions, improve transparency across the campus community and provide a robust platform for sharing and analyzing data.

WHAT IS THE SCOPE OF KNIGHT VISION?

The Knight Vision program consists of seven, complex individual elements that will affect the entire campus community in different ways and at different times.
