# Knight Vision XChange

## A Conversation with the PeopleSoft Retrofits Workstream

February 22, 2022

# The Knight Vision Retrofit Team

TEAM	FUNCTIONAL AREA
Rebecca Vilsack	Project Owner
Varsha Das	Retrofits Workstream Lead
Ronald Matthews	Development Manager
Joey Berchmans	Project Manager
Kelly D'Agostino	Student Financials Business Owner
Michael Bell	Financial Aid Business Owner
Mike Stein	Workday Accounting & FDM Integration Lead
Isha Guerrero-Londeree	Workday Payroll & Benefits Integration Lead
Molly Myers	Workday Payroll & Benefits Integration Lead
Jessica Scheck	Workday Banking Integration Lead

# PeopleSoft Retrofits Overview

## PeopleSoft Retrofits project will allow UCF to

- continue providing student services like enrollment & financial aid disbursements for ~75,000 students
- maintain services to ~12,000 faculty and staff
- provide the ability to integrate data between PeopleSoft Campus Solutions and Workday
- continue mandatory state reporting on financial activity, students, faculty, and staff

## What can I do to prepare?

- Retrofit any departmental reports/queries from Campus Solutions
- Review and potentially update business processes
- Understand that the source of data for employees will be Workday HCM
- View additional details on the [PeopleSoft Retrofits webpage](#)
- Reach out to members of the PeopleSoft Retrofits team if you have any questions!

# Future State of PeopleSoft Campus Solutions

Function	Current	Future
Historical Reference for Person Data	Campus Solutions is currently the master location for person data.	Campus Solutions will continue to serve as a historical reference for person data.
Financial Data Model	Limited chart of accounts.	UCF will speak with a rich, unified financial language across all applications
Data Flow	Campus Solutions integrates with PeopleSoft Financials and PeopleSoft HCM.	Campus Solutions, Workday, and SailPoint IdentityNow will be integrated, allowing data to flow between the systems.
Bolt-On Applications	Bolt-on applications are distributed between HCM, Campus Solutions, and Financials.	Safely house UCF custom bolt-on applications to support business need via a “lift-and-shift,” until new cloud solutions have been determined.
